

10 green rules of Orakel

- ✓ PACKAGING
Pack our products as good as possible with a minimum of packaging
- ✓ HEATING
Reuse the warmth of machines to heat the production department
- ✓ COMPRESSED AIR
Continuously check the compressed air-circuit to avoid leakage
- ✓ ECO-PRODUCTION
Switch over to usage of ecological materials for production
- ✓ PAPER CONSUMPTION
Try to reduce our paper consumption by using paperless office and continuously make people conscious of not printing too much
- ✓ WASTE
Sort and recycle our waste as much as possible
- ✓ LIGHTING
Invest in timers for lighting
- ✓ ELECTRICITY USAGE
Invest in divided circuits which can be completely switched off for offices and production department
- ✓ GREEN COMMUNICATION
Stimulate customers and suppliers as much as possible to not print out electronic communication
- ✓ MAKING THE STAFF CONSCIOUS OF THE ENVIRONMENT
We have a fixed agenda item 'green greetz' on our meetings
